

## HOW BIG IS YOUR GOD?

“You need a God who can place 100 billion stars in our galaxy and 100 billion galaxies in the universe.” – Max Lucado

Do you worship a god of chance or the God of design? Is your god the bang of evolution or the Creator of the bang? I refuse to trust in a chance god. I won't place my destiny in the hands of an explosion of nothing that caused everything. I don't have enough faith for that! When I am trying to figure life out, I want more than help from a science that rolls the dice. I need the God who spoke, and the universe happened: so grand that man will spend the rest of our existence trying to measure it and never reach its outer limit. I want the real Deal, not a theory. My God has to be bigger than I am, larger than my dreams, and greater than my imagination. I want a Genesis 1:1 God. He will be there at the Amen of Revelation 22:21. He is not only the God of earth and space He is the Father of eternity. If my God comes from eternity and lives in eternity, He can tell me how to get there. I need more than numbers, theories, guesses, and opinions. I need a God whose foolishness is wiser than men and whose weakness is stronger than men. I need a God who uses the foolish things of the world to put to shame the wise. I'll settle for Jesus. He was there when everything started. He will be there when life as we know it ends.
